

# Ryosuke Shimada

Graduate School of Mathematical Sciences, the University of Tokyo

rshimada@ms.u-tokyo.ac.jp

## Education

- Doctor (expected), Mathematical Sciences, the University of Tokyo, April 2021-March 2024.  
Thesis: Geometric Structure of Affine Deligne-Lusztig Varieties for  $GL_n$   
Advisor: Yoichi Mieda
- Master, Mathematical Sciences, the University of Tokyo, April 2019-March 2021.  
Thesis: Geometric Structure of Affine Deligne-Lusztig Varieties for  $GL_3$   
Advisor: Yoichi Mieda
- Bachelor, Mathematics, the University of Tokyo, April 2015-March 2019.

## Research Interests

Affine Deligne-Lusztig Varieties, Shimura Varieties, Langlands program.

## Grants/Fellowships

- Overseas Challenge Program for Young Researchers, August-November 2023.
- JSPS Research Fellow (DC1), Japan Society for the Promotion of Science (Grant number: JP21J22427), April 2021-March 2024.
- WINGS-FMSP Course Student, World-leading Innovative Graduate Study for Frontiers of Mathematical Sciences and Physics, October 2019-March 2024.

## Awards

- Dean's Award (Master's course), Graduate School of Mathematical Sciences, the University of Tokyo, March 2021.

## Scholarships

- The Julius Springer Scholarship, April 2021-March 2024.
- Dentsu Scholarship, April 2015-March 2021.

## Academic Visits

- The University of Duisburg-Essen (U. Görtz), August-November 2023.
- The Chinese University of Hong Kong (X. He), June 2023.
- The University of California, Berkeley (S. W. Shin), February 2023.

- The University of Maryland (T. Haines), November 2022.
- The Technical University of Darmstadt (T. Richarz), October 2022.
- The 2022 Summer School on the Langlands program, IHES, July 2022.
- The University of Chicago (K. Kato), January-February 2019.

#### Teaching/Research Assistant

- TA, *Algebra I/ Exercise in Algebra I*, Spring 2020.
- TA, *Exercise in Linear Algebra*, Autumn 2020.
- TA, *Algebra I/ Exercise in Algebra I*, Spring 2021.
- TA, *Introduction to Mathematical Science*, Autumn 2021.
- TA, Mathematics Help Room, Spring 2022.
- RA, Computer and Network Management Group, August 2021-March 2024.

#### Papers

- [1] R. Shimada, Basic loci of positive Coxeter type for  $GL_n$ , arXiv: 2402.13216 (2024), submitted.
- [2] F. Schremmer, R. Shimada and Q. Yu, On affine Weyl group elements of positive Coxeter type, arXiv: 2312.02630 (2023).
- [3] R. Shimada, ピンホールモデルにおける再構成問題と簾多様体, 数理科学実践研究レター2023, LMSR 2023-13.
- [4] R. Shimada, The Ekedahl-Oort stratification and the semi-module stratification, arXiv:2309.03371 (2023), submitted.
- [5] R. Shimada, Semi-modules and crystal bases via affine Deligne-Lusztig varieties, Adv. Math. 441(2024), Paper no. 109565.
- [6] R. Shimada, On some simple geometric structure of affine Deligne-Lusztig varieties for  $GL_n$ , Manuscripta Math. 173(2024), no.3-4, 977-1001.
- [7] R. Shimada, Geometric structure of affine Deligne-Lusztig varieties for  $GL_3$ , J. Algebra 623 (2023), 86-126.

#### Invited Talks in Seminars

- [1] Beyond the cases of Coxeter type, Mathematical Society of Japan Spring Meeting 2024, Osaka Metropolitan University, March 18, 2024.
- [2] Beyond the cases of Coxeter type, Mittagssseminar zur Arithmetik, the University of Münster, November 7, 2023.
- [3] Beyond the cases of Coxeter type, Research Training Group Seminar, the University of Duisburg-Essen, October 26, 2023.

- [4] Crystal bases and affine Deligne-Lusztig varieties, 22<sup>th</sup> Hiroshima-Sendai Workshop on Number Theory, Hiroshima University, July 14, 2023.
- [5] Crystal bases and affine Deligne-Lusztig varieties, Algebraic Lie Theory and Representation Theory 2023, Tokyo Institute of Technology, May 14, 2023.
- [6] Semi-modules and crystal bases via affine Deligne-Lusztig varieties, the 19th Mathematics Conference for Young Researchers, Hokkaido University, March 7, 2023.
- [7] Semi-modules and crystal bases via affine Deligne-Lusztig varieties, Berkeley Number Theory Colloquium, University of California, Berkeley, February 15, 2023.
- [8] Semi-modules and crystal bases via affine Deligne-Lusztig varieties, Lie Groups and Representation Theory Seminar, University of Maryland, November 16, 2022.
- [9] Semi-modules and crystal bases via affine Deligne-Lusztig varieties, GAUS-Seminar, Technischen Universität Darmstadt, October 20, 2022.
- [10] Semi-modules and crystal bases via affine Deligne-Lusztig varieties, Number Theory Seminar, Hokkaido University, September 21, 2022.
- [11] On some simple geometric structure of affine Deligne-Lusztig varieties for  $GL_n$ , Mathematical Society of Japan Autumn Meeting 2022, Hokkaido University, September 15, 2022.
- [12] On some simple geometric structure of affine Deligne-Lusztig varieties for  $GL_n$ , Number Theory Seminar, Kyoto University, May 27, 2022.
- [13] Geometric structure of affine Deligne-Lusztig varieties for  $GL_3$ , Mathematical Society of Japan Spring Meeting 2022, Saitama University(online), March 31, 2022.
- [14] Geometric structure of affine Deligne-Lusztig varieties, the 18th Mathematics Conference for Young Researchers, Hokkaido University (online), March 3, 2022.
- [15] Geometric structure of affine Deligne-Lusztig varieties for  $GL_3$ , 20<sup>th</sup> Hiroshima-Sendai Workshop on Number Theory, Hiroshima University (online), July 13, 2021.
- [16] Geometric structure of affine Deligne-Lusztig varieties for  $GL_3$ , Number Theory Seminar, the University of Tokyo (online), May 26, 2021.
